

Artificial Intelligence in the Educational and the Learning Landscape

VIRTUAL CEU

APRIL 18 | 5:30 - 7:30 PM

Registration is Now Open!

Fee: \$25

<https://asu-dartonfoundation-ai-education.eventbrite.com/>

*All proceeds benefit student scholarships.

This 2-hour CEU is designed to help individuals and educators gain an understanding of the rapid changes of Artificial Intelligence and obtain valuable insight into how AI can be used to help educators become more proficient and inspire new ways of learning. In this CEU, educators and attendees will learn:

- What is AI?
- AI trends.
- How to effectively use it in the classroom.
- Warnings about privacy and ethical uses.
- How to increase your effectiveness and efficiency using AI tools.
- Interventions to prevent adverse use of AI in learning.
- Principles for use.
- Where do we go from here?
- Obtain tool kits for teaching and learning with AI.

Vicki Davis | Program Facilitator

Renowned speaker, educator, and EdTech enthusiast, Vicki Davis, known by many as “The Cool Cat Teacher,” is a 22-year veteran educator, passionate about reaching every student, an award-winning author, blogger, podcaster, and recognized expert in artificial intelligence. With two of her three children having learning differences, Vicki has a special place in her heart for students who face challenges and helping teachers embrace other learning styles. She is dedicated to discovering technologies and implementing tools that can unlock every child’s and teacher’s potential.

As a global collaborator, Vicki’s accomplishments include collaborating with students and teachers world-wide, fostering understanding and collaboration, and was awarded the ISTE 2006 Online Learning Award. Among other accomplishments, Vicki was recognized as the Top Education Voice 2020, Top Education Influencer of 2021- ISC Research, host of the Cool Cat Teacher Blog and the 10-Minute Teacher Podcast, and Director of Instructional Technology.

With a philosophy to “Innovate Like a Turtle,” Vicki believes in the power of consistent, gradual innovation in the classroom and embracing technology and artificial intelligence to increase teaching and learning opportunities.

Speaking at events by tech giants like Google, Microsoft, and Dell, Vicki aspires to innovative classroom technology and gained recognition as having One of the Top 10 Financially Literate Classrooms in the US! As a technology advocate, she has shared over 100 keynotes worldwide on topics ranging from differentiating instruction to the ethical use of artificial intelligence in teaching.
